Imitation Cedar Shakes -- Lancaster, PA

For complete installation of imitation cedar shakes, contact Brookline Builders. Although real cedar shakes are beautiful, they don't last as long as imitation cedar.

Imitation cedar shakes are made out of a composite material and offered by several companies, DaVinci, and Tamko's Lamarite Shake, Enviroshake and Carlisle.

Imitation cedar shakes can be installed in a random pattern or in traditional styles.

Contact Brookline Builders for all your composite or imitation cedar shake installation needs.
